

StrucSure Home Warranty provides new-home warranties to builders across the United States. Our warranties are not only a smart risk management tool, they are also a great sales tool because they help builders sell more homes by giving buyers peace-of-mind about their investment. Reduce your risk, add to your bottom line, and avoid the courthouse by providing a third-party, insurance-backed warranty from StrucSure on every home you sell.

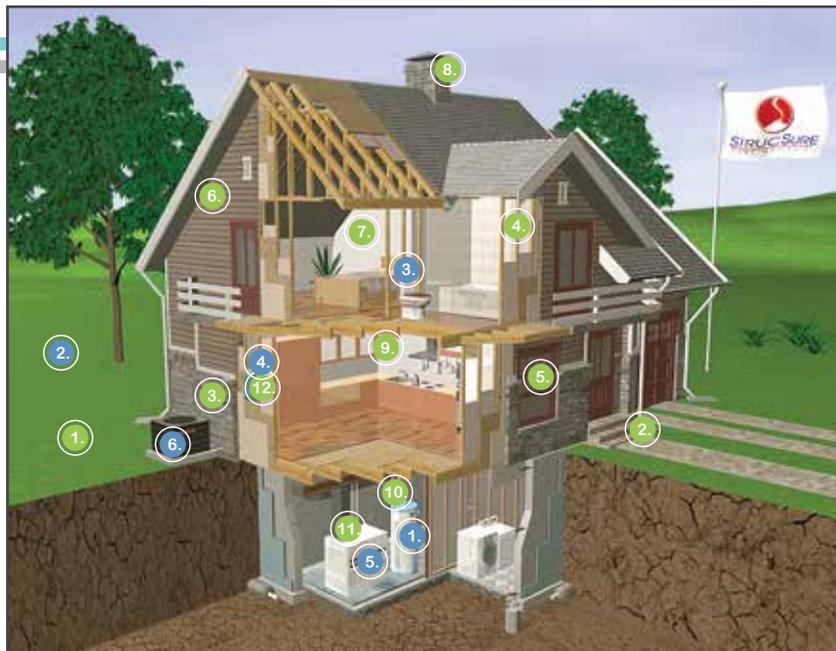

1, 2, & 10-YEAR WARRANTY

This multi-part warranty program includes the following coverages:

- The **one-year warranty** provides surety coverage and backs the builder's warranty on **defects in workmanship and materials**. Covered components of a home that do not meet established Performance Standards during the first year will be repaired, replaced, or paid for under our warranty in the event the builder is unwilling or unable to do so.
- The **two-year warranty** provides surety coverage and backs the builder's warranty on **defects in the wiring, piping, and ductwork in the electrical, plumbing, heating, cooling, ventilating, and mechanical systems**. Covered components of a home that do not meet the established Performance Standards during the first two years will be repaired, replaced, or paid for under our warranty in the event the builder is unwilling or unable to do so.
- The **10-year structural warranty** provides direct coverage from the day of closing for **major structural defects**. If a major structural defect occurs within the 10-year warranty term, it will be repaired, replaced, or paid for by StrucSure Home Warranty.
