

StrucSure Home Warranty Congratulates Tiffany Acree on Receiving “Associate of the Year” Awards from Two Homebuilder Associations in Texas

DENVER CO – October 5, 2016 - StrucSure Home Warranty, one of the nation's leading new-home warranty providers, is proud to congratulate Tiffany Acree on receiving two “Associate of the Year” Awards in Texas.

Acree, StrucSure’s Senior Vice President of Sales, was recognized by two Texas Homebuilder Associations last week for her time, effort, and commitment to the Texas housing industry and the impact she’s made as a result of her years of service to local builders and homebuilder associations.

On Thursday, September 29th, Acree was presented with the “2016 Rupert Pridemore Associate of the Year” Award from the Greater Ft. Worth Builders Association. On Friday, September 30th, she was presented with the “2016 Associate of the Year” Award from the Dallas Builders Association.

“Tiffany has been one of the strongest supporters of the Greater Ft. Worth Builder’s Association,” commented Kimberly Eaton-Pregler, GFWBA Executive Vice President. “She has shared her time and talents with our organization year after year. She is a Life Director on our board, has served on our Executive Committee, and represents the GFWBA at the state level as well. We appreciate her dedication to our industry and our association.”

Acree joined StrucSure in 2007 and has been involved in the new home warranty industry since 1994. She is highly involved in local homebuilder associations in Texas, has received multiple industry awards, and is a six-time member of StrucSure Home Warranty’s Million Dollar Club (being the first employee to achieve million dollar producer status during 2011, and receiving that recognition every year thereafter).

“Ms. Acree is a consummate sales professional that consistently raises the bar and achieves her goals,” commented company CEO Jerry Thompson. “The two “Associate of the Year” awards are well deserved and a testament to her hard work and dedication to the Texas homebuilding industry.”
